Hawk Eye

The Hawk Eye is our top-selling dual-camera modular CCTV security pole. This standalone dual 8MP CCTV system features a built-in solar panel, lithium battery, charge controller, 4G router, WiFi, and two 8MP cameras. It also includes blue and red flashing lights upon intrusion, providing the ultimate site deterrent and visual surveillance in the security industry.

The Hawk Eye is equipped with an automatic pole extension, utilising an electronic linear drive to extend the pole from 2.9m to an impressive 4.3m in height. Receive notifications of on-site movements easily through app notifications and emails sent directly to you. Arm, disarm, and monitor all site activity remotely from your phone.
